BIOENGINEERED BACTERIAL CULTURES WITH ACTIVE ENZYMES

- Institutional strength clean scent odor counteractant formula for immediate odor control.
- Ideal for use on organic odors and stains from urine, vomit, feces, blood, grease, wine and sewage.
- Specially selected blend of highly active bacteria quickly digest a broad spectrum of organic waste.
- High bacteria count, over 10 billion per gallon for highest efficiency.
- Powerful, rapidly multiplying bioengineered bacteria work better and faster for long lasting odor control.
- A unique manufacturing process places the bacteria into a dormant state to guarantee extended shelf life and maximum enzymatic activity when used.
- Free enzymes immediately digest waste on contact.
- Non Corrosive

General Information

ENZYMEX is specially formulated with over 10 billion high activity bacteria and free enzymes to digest and liquefy organic waste in drain lines, grease traps, septic tanks, sewage treatment plants and holding tanks. It provides immediate and residual odor control by digesting

organic waste such as vomit, urine, blood, grease and sewage.

ENZYMEX is safe to use, non-toxic, non-corrosive, non-pathogenic, certified salmonella free, environmentally safe and biodegradable.

Technical Information

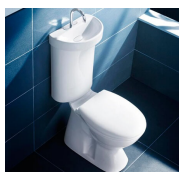

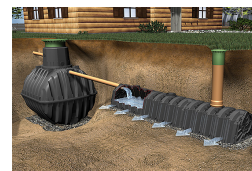

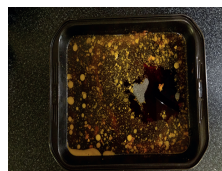

Physical state: Liquid
 Colour: yellowish - light brown
 Odour: characteristic
 Composition: bioengineered bacterial cultures, enzymes, surfactants

pH Value: 2,5 - 3,5
 Density (at 20°C): 1,005 g/cm³
 Shelf life: 12 month, do not store in direct sunlight.
 Store between 7°C and 35°C. Keep container closed.
 Safety measures: consult the Safety Data Sheet.
FOR INDUSTRIAL AND COMMERCIAL USE ONLY!

Application and Use

- Digest odors around urinals, toilets, sinks and on the floor.
 Carpet, fabric, wood and hard surfaces not affected by water.
 Grease trap and septic tank applications.
 Drain line treatment to prevent clogging.
- Major Users: Hospitals, Hotels, Restaurants, Offices, Schools, Colleges and Universities, Residential complexes, Laundromat, Carpet cleaners, Public toilets, Departmental stores, Food processors, industries etc.
- GREASE TRAP APPLICATIONS:
 For grease traps of less than 55 cm³ capacity, add 130 to 170 ml. For grease traps larger than 55 cm³, add 260 to 330 ml. Apply regularly by pouring in a sink or pipeline closest to the trap nightly or when traps are used the least.
- TO DIGEST URINAL TRAP DOORS: Initial Dose: Pour ½ to 1 liter when urinal will not be in use - do not flush.
 Maintenance: pour 150 ml in trap twice weekly - do not flush.
- DRAIN LINE TREATMENT TO PREVENT CLOGGING: Use product from 2 to 4 times weekly depending on the size of the building and piping. Always start with lower floors first.
- ODOR CONTROL:
 small areas (organic stains, waste bins, vomit, etc.): Mix ENZYMEX 1:10 with water and spray.
 large areas (composting plants, waste areas, large scale operations, etc.): Mix ENZYMEX 1:100 and spray 0,5 liter per m² at least twice a week.
- NOTE: Do not use hot or boiling water, disinfectants, bleach, chlorinated products, or harsh drain openers either before, during or after use of ENZYMEX. Use of these materials will kill the bacteria and render the product ineffective.
- SHAKE WELL BEFORE USING
