Fix All Filler

FINE CRYSTALLINE SPECIAL GRANULATE

- Adhesion-promoting primer coating
- For improving the filling properties of cyanoacrylate glues
- Reacts within seconds and sets steel-hard
- Can be used on any kind of material
- Waterproof
- Resistant to temperature and chemicals
- Can be sanded and painted over

General Information

FIX ALL FILLER is a fine crystalline special granulate with an adhesion-promoting primer coating. FIX ALL FILLER improves the filling properties of cyanoacrylate adhesives.

FIX ALL FILLER has excellent gap filling properties and can be used on nearly any kind of material. FIX ALL FILLER reacts within seconds and sets steel-hard.

Technical Information

Colour: white
Odour: characteristic

Storage: cool, dry atmosphere at approx. 15 - 20°C

Application and Use

- FIX ALL FILLER can be used for all fine and coarse-pored fractures or comminuted fractures of metal, wood, porcelain, ceramic, etc.
- The surface to be bonded should be free of oil, dust and grease.
- Gluing:
 - Spread FIX ALL FILLER about 1 mm thick on one side to fill gaps.
 - Apply the adhesive thickly on the other side.
 - Join the pieces to be bonded and press firmly together.
 - If necessary, apply another thin layer of adhesive to the seam around the break to allow FIX ALL FILLER to soak in completely.
 - Remove any surplus.
- Filling:
 - Pour FIX ALL FILLER into the crack or hole and sprinkle with sufficient adhesive. Done!
- CAUTION: FIX ALL FILLER sets completely immediately after contact with adhesive.
