Powercleanse Protect

**BARRIER CREAM FOR SKIN PROTECTION**

- Silicone-free
- Leaves no fingerprints
- Prevents contact eczema and skin irritation

**General Information**

POWERCLEANSE PROTECT is a non marking, silicon free barrier cream. It prevents the skin against contact eczema and irritations caused by contact with cleaning products, paints, oil, fat, grease solvents etc.

POWERCLEANSE PROTECT passed a human patch test with the rating "very good". The product did not lead to allergic or toxic-irritative intolerance reactions in epicutaneous testing in accordance with international guidelines.

**Technical Information**

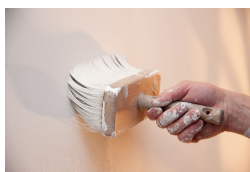

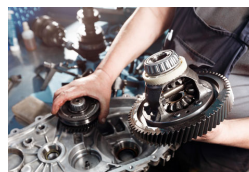

Physical state: Cream  
 Colour: white  
 Odour: pleasant  
 pH-Value (at 20°C): ≈ 6

Boiling point: 100°C  
 Vapour pressure (at 20°C): 23 hPa  
 Density (at 20°C): 1 g/cm<sup>3</sup>  
 Water solubility: immiscible

**Application and Use**

- POWERCLEANSE PROTECT was designed to prevent skin irritations and contact eczemas cause by the above mentioned products and leaves no fingerprints.
- Place a small amount of the POWERCLEANSE PROTECT in the palm of the hands and rub vigorously. Especially mind the nails and the nail bed. After a short drying time an invisible, dirt-repellent and pH neutral film will protect the hands.
- After finishing work, wash off the dirt and the protecting film with POWERCLEANSE or POWERCLEANSE SOAP and apply POWERCLEANSE CARE for skin regeneration!
