Plastic Renew Liquid

THE RENEWER FOR SYNTHETIC MATERIALS

- Cleans, polishes and protects in just one action
- Can be used on all synthetic and plastic parts
- Very economical in use due to long lasting protective effect
- Prevents rapid recontamination of treated surfaces
- Restores the original look and colour especially on weathered parts
- Creates a high-quality semi-gloss shine for a long time period
- Contains no solvents, thus no haze is formed
- Contains silicones (less than 2% in solid form)
- Leaves no white stains on the treated material

General Information

Cleaning, polishing and protecting can easily be done in just one action with PLASTIC RENEW LIQUID. The special formula renews the look of all synthetic and plastic parts, indoors and outdoors. Especially on weathered parts, the original colour and appearance will be restored with PLASTIC RENEW LIQUID.

PLASTIC RENEW LIQUID prevents the rapid recontamination of the treated areas. Due to its long lasting protective effect, PLASTIC RENEW LIQUID is very economical in use. The product is safe for all users as it does not contain any solvents, thus no vapours are released.

Technical Information

Form: liquid
Colour: light purple
Odour: fruity
pH-value (at 20°C): approx. 7
Initial boiling point: 100°C
Flash point: < 100°C

Vapour pressure (at 20°C): 23 hPa
Density (at 20°C): approx. 1 g/cm³
Miscibility in water: fully miscible
Storage: frost-free
Shelf life: 24 months

Application and Use

- APPLICATION:
 - Especially created to be used for renewing all kinds of synthetic and plastic parts
 - Ideal for the use on tires, dashboards, bumpers and other plastics parts inside of vehicles
 - Suitable for other synthetic parts such as TV-housing and PC-housing
