Solar Care

clean and care solar plants

- cleans & cares in one application
- suitable for photovoltaic panels and solar collectors for manual cleaning
- can be used also to clean glass outdoors
- reduces the adhesion of dust, pollen, bird droppings, industrial deposits, etc.
- the water beading surface gives a long-lasting shine
- cleaned panels increase radiation absorption and the efficiency of the system
- It is economical by being highly dilutable

General Information

SOLAR CARE is an economical, high concentrated cleaning agent and preservative in one. It reduces the adhesion of dust, flower pollen, bird droppings, deposits from industry.... leaving the surface completely clean.

SOLAR CARE gives photovoltaic panels and solar collector's surfaces an antistatic, beading effect that gives an excellent long-lasting gloss. This increases the radiation absorption and the efficiency of the system.

Technical Information

Physical state: Liquid
 Colour: orange
 Odour: fruity
 pH-value at 20° C: 7
 Initial boiling point and boiling range: > 100 °C
 Flash point: > 100° C
 Vapour pressure at 20° C: 23 hPa

Density at 20° C: 1.02 g/cm³
 Shelf life: 24 month, always keep the lid closed.
 Store in shade away from direct heat.
 Do not freeze!
 Safety measures: consult the Safety Data Sheet.

Application and Use

- APPLICATION:
- SOLAR CLEAN is used by companies doing maintenance, cleaning, housekeeping,
- can be used also to clean glass outdoors
- PREPARATION:
- before cleaning the photovoltaic panels and solar collectors: rinse them with water - best to use is distilled water to prevent lime stains
- Important: Do not clean in direct sunlight and when the panels are hot!
- best time for application: in the morning or evening, on cloudy days
- USE:
- mix in proportions of 16 ml of SOLAR CLEAN to 1 liter of distilled water
DO NOT USE UNDILUTED!
- use a soft sponge, possibly on a telescopic pole according the situation
- it is recommended to use GoGrip gloves
- clean the panels / collectors one by one, after each panel clear the sponge and reapply with SOLAR CLEAN mixture
- After washing do not dry the surface, just rinse with distilled water or rain water
