Sentrex

### VAPOR EMITTING CORROSION INHIBITOR CUPS

- Provides Protection up to 24 months
- Does not Interfere with electrical, optical or mechanical performance
- Multimetal protection
- Protects during operation or shutdown
- Effective in polluted & humid environments
- Low VOC Values
- Contains desiccant properties
- Self stick back

### GENERAL INFORMATION

SENTREX emitter cups slowly release an invisible vapor corrosion inhibitor into the interior of non ventilated electrical & electronic equipment. The vapor then deposits on the metal surfaces and forms a protective molecular

layer. This layer of inhibition provides continuous long-term multimetal protection and helps reduce corrosion in the enclosure for up to 12 month. Sentrex® is non-toxic and safe to handle and apply.

### Technical Information

Type: Plastic cups  
 Odor: Slight  
 Color: Green  
 Viscosity: Powder  
 Density @ 25° C: N/A  
 Flash Point: None  
 Boiling Point: N/E  
 Solubility in water: Insoluble

Specific Gravity: N/A  
 Density: N/A  
 PH Factor: N/A  
 Shelf life: 12 month.  
 Safety measures: consult the Safety Data Sheet.  
**FOR INDUSTRIAL AND COMMERCIAL USE ONLY!**

### APPLICATION AND USE

- It can be used to protect gun safes, storage lockers, toolboxes, tackle boxes, marine navigation and communication equipment, electric motors, switching equipment, fuse boxes power boxes, medical equipment, electrical wire ways, terminal boxes, scientific and measuring instruments, hand held battery - operated devices, telecommunications equipment and remote electronics.
- SENTREX emitter cups adhesive backing allows fast, no tool installation. Easy to use. Simply attach to a clean surface and go.
