

## MULTIPURPOSE SOLVENT DEGREASER

- Leaves no oily film.
- Fast, thorough and safe degreasing and cleaning.
- Can be used on painted surfaces, vinyl, glass, rubber, formica and plastics.
- Fast drying.
- Very economical
- Fast, thorough and safe degreasing and cleaning.
- Removes adhesives, sealants, oil, grease, silicon, wax, tar, paraffin, printing ink, ....

### Notice

All information including images are given with the greatest care. Still, it is appropriate to users regardless of the test the suitability of each product for their own purposes. Xintex is not liable for the completeness and accuracy of information and refuses warranty for your specific use. The guarantee, which Xintex products provide, relates only to the standard conditions of sale of this product. In no case Xintex can be held responsible for incidental damages, or damages for improper use or sale of the product to another customer.

### General Information

SOLVIX is a safe and fast multipurpose solvent-degreaser that leaves no oily film. SOLVIX is a 100% aliphatic hydrocarbon

solvent that contains no recycled solvents. SOLVIX is safe in use on most plastics as well as on painted surfaces, vinyl and glass.

### Technical Information

Physical state: Liquid  
 Colour: colourless  
 Odour: characteristic  
 Melting point: < -30 °C  
 Initial boiling point and boiling range: 135 - 170 °C  
 Flash point: 27 °C  
 Self ignition temperature: 200 °C

Upper/lower flammability or explosive limits: 0.6 - 8 Vol-%  
 Vapour pressure (at 20 °C): 0.5 kPa  
 Density (at 20 °C): 0.735 - 0.77 g/cm³  
 Shelf life: 12 months, keep dry, cool and frost-proof.  
 Safety measures: consult the Safety Data Sheet.

### Application and Use

- **AUTOMOTIVE**
  - Degreasing and cleaning mechanical parts, motor, brakes, suspension.
  - Cleaning tools and workshop equipment - does not attack plastics.
  - Removal of stickers of masking tape adhesive residues.
  - Removal of previous grease layers before relubricating, e.g. door hinges.
  - SOLVIX does not corrode the paint.
  - Removal of trims and bumper strips without damaging.
  - Removal of tar and other coating stains from both bodywork and plastic parts.
  - Removal of grease and oil stains from seat upholstery (always test first for colourfastness).
  - Cleaning of paint and undercoat before spray-painting (always use a 2-cloth system).
- **INDUSTRY**
  - Degreasing and cleaning mechanical parts of motors and machines.
  - Degreasing and cleaning tools and workshop equipment, hand tools and machines.
  - Cleaning rubber rolls in printers.
  - Quick and safe degreasing of ferrous and non-ferrous metals before bonding or painting.
  - SOLVIX will not form an oxide layer with light metals.
  - Removal of stickers or labels adhesive residues.
  - Removal of grease and oil stains from textile (always test first the colour fastness).
  - Removal of contact adhesive residues on formica in kitchen and furniture manufacturing.
  - Removal of previous grease and oil layers before relubricating.
