The guarantee, which Xintex products provide, relates only to the standard conditions of sale of this product. In no case Xintex can be held responsible for incidental damages, or damages for improper use or sale of the product to another customer.

General Information

THERMOTEX ULTRA is a biodegradable drain line opener and maintainer, which remains inactive until it enters in direct contact with water and organic matter. It quickly restores drains to full

flow without harming drainpipes and fittings by attacking the key source of slow-moving drains (hair, soap scum and slime), which becomes trapped, matted and tangled causing a constant problem.

Technical Information

Physical state: granulate

Odour: inconspicuous
Colour: white

Application and Use

- APPLICATION:
 - THERMOTEX ULTRA can be used in showers, floor drains, bathtubs, sinks, drinking fountains, air conditioning condensate drains, urinals, X-ray sinks.
- USE:
 - Basic cleaning for pipelines: Dose 0.2 kg per cm and 0.05 kg per col depending on the diameter of the pipe.
 - Food industry: In food processing and packaging plants, and commercial kitchens, add 0.5-1 kg of THERMOTEX ULTRA to the grease trap and affected drains. For other industrial drains, also use 0.5-1 kg.
 - For channel cleaning: Dosage is basically 5 kg of THERMOTEX ULTRA. In case of a larger blockage: 10 kg, even 20 kg.
 - Gradually increase the amounts or re-dose if the blockage has not yet disappeared.
 - Using too much drain cleaner in short time can cause a violent reaction.
 - The room must be well ventilated during use!
 - For slow running drains, add one capful of THERMOTEX ULTRA.
